

Aprimatic programming Manual

The programming manual is the same as original remote control. If our manual is not clear, you can search manual in google, youtube.also can contact us via Email. Anyway, we will try our best to make best service for you.

- 1) Open the radio receiver of your installation. (Locate it by following the antenna wire).
- 2) Press the push button on the radio card for 2 seconds. A light appears on the radio card. The receiver is now in learning mode.
- 3) Press the button 1 on your new remote control for 1 second (the button next to the letter A from APRIMATIC). Do the same with all your new remotes.
- 4) After about 15 seconds, the radio card indicator light turns off, signaling the transition from receiver to normal reception.
- 5) Test your new remotes.
- 6) Close the radio receiver.
